**Subject:** Final PCB Air Sampling Plan for PS 199M  
**Attachments:** 2016-05-17 PS 199M Air Sampling Plan.docx

Jim:

Please see attached the plan to perform a final round of PCB air sampling without carbon air filtration at P.S. 199M.

The SCA plans to suspend carbon air filtration in the entire school for approximately three (3) months starting on July 14th. Nine (9) area samples will be collected on or about October 14, 2016. Sampling will be performed throughout the school in seven (7) classrooms, library, and gym.

Regards,  
Alex.
